

## Grenfell Tower Fire

### Have you been affected by the fire, or do you know someone who has?

Following the dreadful fire at Grenfell Tower on Wednesday 14 June, Kensington and Chelsea established an Assistance Centre for the longer term support of affected families and the wider community on the very challenging road to recovery. This has now moved to a more suitable building:

#### The Grenfell Assistance Centre

You are invited to the new centre at **The Curve, 10 Bard Road W10 6TP** which is just around the corner from **Latimer Road Station** and the **Westway**.

The new centre opened on Thursday 20 July 2017 replacing the centre at Westway. **The opening hours will still be from 10am to 8pm.**

Situated over 3 floors, the new centre will continue to provide official services to the residents affected by the Grenfell Tower tragedy.

Other services include:

- emotional support
- a creche for children
- food and toiletries area
- placing orders for new clothes

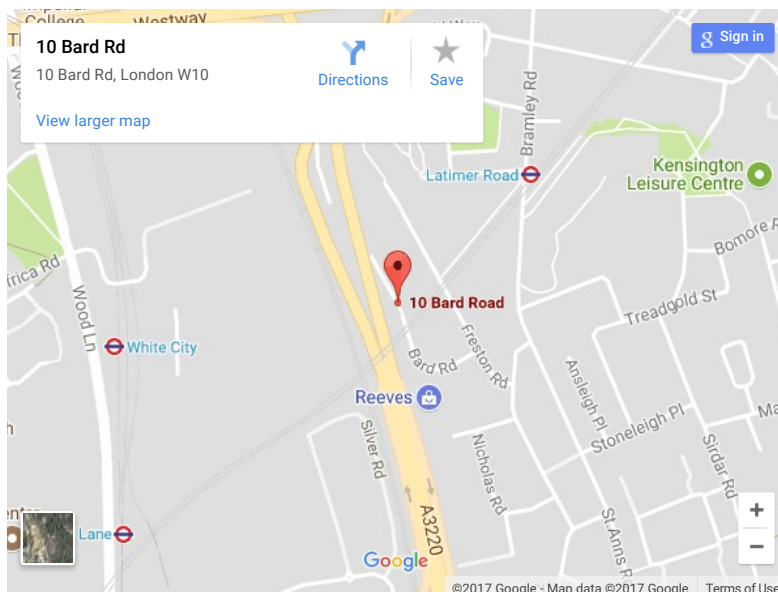

There is space for the community affected to meet and catch up with family, friends and neighbours.

Community volunteers will also be present to carry on their crucial work of supporting you in any way possible
