

Leaflets Library

We have gathered a huge amount of information on People First which we hope people will find useful.

But we recognise that not everyone can access the internet to see what we have to offer.

You can already print off information from any page on People First to give to any person who might find it useful. And in the next few months we will be improving the way in which this information appears in printed form.

But we are also working with the councils of Westminster, Hammersmith and Fulham, and Kensington and Chelsea to develop a collection of leaflets on key topics which can be printed out and given to those who cannot access the website.

The links below will take you to leaflets currently published for your local council. And over the coming months more leaflets will become available.
