

This is Alcohol Awareness Week

November 13th to 19th is Alcohol Awareness Week

The aim of Alcohol Awareness Week is to get people thinking about alcohol - how it affects us as individuals, families, communities and society as a whole.

Did you know that alcohol is linked to over 60 medical conditions? Harm from alcohol goes much further than the liver, it can cause high blood pressure and is also linked to diabetes, depression and cancer.

The Alcohol Service @ Kensington and Chelsea, Hammersmith & Fulham and Westminster will be hosting a [number of events across the three boroughs](#).
